

## REMARKS

The amendments to the application are being made to reflect the national phase status of the application in the cross reference, and to include the Abstract.

Furthermore, claims have also been amended to correct some editorial errors. Specifically, claim 4 has been amended to correct the typographical error at line 3 by replacing "a light emitting diode" with --the light emitting diode--. Claim 5 has also been amended to replace the term "pre-selected areas" at line 4 with --pre-selected region-- to be consistent with the terminology used in the rest of the claims.

Claims 1 and 3-5 have also been amended to delete the reference characters, which the Applicant believes are not a requirement under U.S. patent practice.

It is respectfully submitted that all the amendments made herein are to more clearly and succinctly recite the invention and to correct defects in the application. These amendments are fully supported by the application as originally filed, and therefore no new matter has been added by the amendments.

Respectfully submitted,  
Dowell & Dowell, P.C.
